

# REFERENCE MANAGEMENT

Sue Bird & Ollie Bridle

November 2014

# TODAY'S SESSION

1. What is reference management?
2. Available software
3. RefWorks
4. Mendely

# REFERENCING

- ▶ Many different styles available
  - ▶ Numbered
  - ▶ Author-Date
- ▶ Check what style you need to use
  - ▶ Department/thesis
  - ▶ Specific journal

# WHAT'S THE POINT OF REFERENCE MANAGERS?

1

- **Staying organised**
- *Collect information about everything you've read in one place.*

2

- **Saving time**
- *Speed up adding citations and creating bibliographies in documents.*

# HOW REFERENCE MANAGERS WORK

1. Collect  
bibliographic  
information

2. Create a  
personal online  
reference  
database

3. Annotate, edit  
and share your  
reference database

4. Automatically create  
a bibliography for your  
work

# ADDING A REFERENCE

Add manually

Direct export from a  
database

Upload from a text  
file

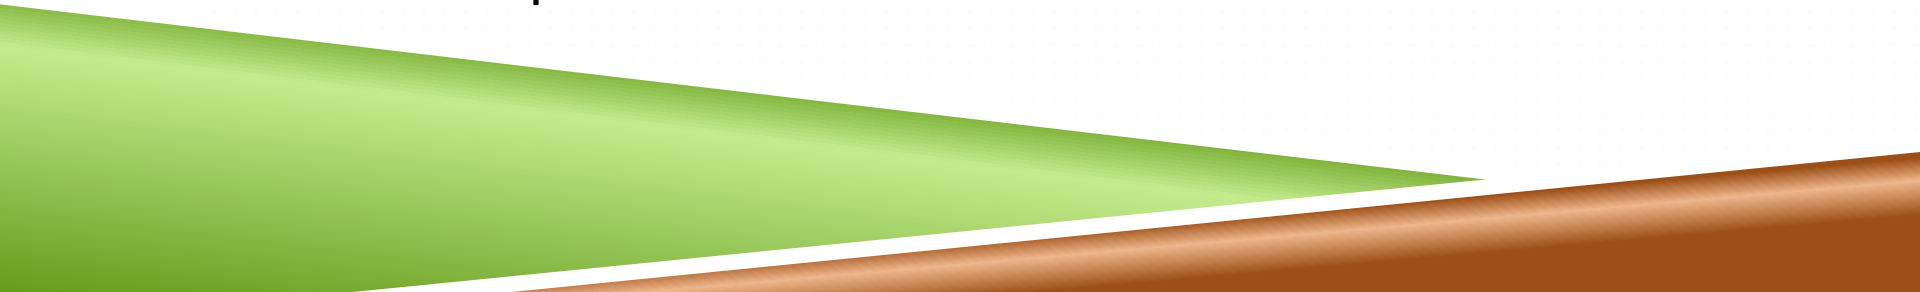

Grab website info

# WHERE YOUR REFERENCE LIBRARY LIVES

- ▶ Your reference library might be stored locally on your hard drive or online
- ▶ Some reference managers allow you to sync your library to the cloud
- ▶ You can work on a downloaded copy offline

# THE LIMITS...

- ▶ It won't tell you where to put citations
  - ▶ Can't extract references from reference lists in existing publications
  - ▶ Garbage in – garbage out
  - ▶ Sometimes it goes wrong...
    - ✔ Take time to learn the software
    - ✔ Test the software on the computer you will be using
    - ✔ Keep backups of your reference library
    - ✔ Ask for help
- 

# SOFTWARE AVAILABLE

- ▶ Many different packages are available
- ▶ The principles are the same but the details are different
- ▶ Variations in price and features

# ABOUT REFWORKS

- ▶ University subscription
- ▶ Online – accessible from anywhere
- ▶ Plugin allows adding references to MS Word documents

# REFWORKS OVERVIEW

The screenshot shows the RefWorks web interface. At the top, there is a navigation bar with links for Language, RefWorks Classic, Update Profile, Customize, Contact Us, RefMobile, and Log out. The main header features the RefWorks logo and the text 'Oxford University Welcome, Oliver Bridle'. Below the header is a navigation menu with 'References', 'View', 'Search', 'Bibliography', 'Tools', and 'Help'. A search bar is located on the right side of the navigation menu. The main content area displays a list of references. On the right side, there is a sidebar with 'Folders' and 'Quick Access' sections. Annotations with arrows point to various features: 'Dropdown menus' points to the 'View' menu; 'Search your references' points to the search bar; 'Quick function buttons' points to the 'New Folder', 'Create Bibliography', and 'New Reference' buttons; 'Folders list' points to the 'Last Imported' folder in the sidebar; and 'Brief view of references in your collection' points to the list of references.

**Dropdown menus**

**Search your references**

**Quick function buttons**

**Folders list**

**Brief view of references in your collection**

# FOLDERS

# DIRECT EXPORT

- Easiest way to move references into your library

The screenshot shows the WoS interface with a search result for 'Inflammasome Activation'. A dropdown menu is open under the 'Save to EndNote online' button, listing options: 'Save to EndNote online', 'Save to EndNote desktop', 'Save to ResearcherID - I wrote', 'Save to Other File Formats', and 'Save to RefWorks'. The 'Add to Marked List' button is also visible.

WoS

The screenshot shows the ProQuest interface with a search result for 'Discussions 5.1'. A dropdown menu is open under the 'Export/Save' button, listing options: 'EasyBib', 'EndNote, Citavi, or Reference Manager', 'HTML', 'PDF', 'RefWorks', 'RIS', 'RTF (works with Microsoft Word)', 'Text only', and 'XLS (works with Microsoft Excel)'. The 'Peer reviewed' checkbox is also visible.

ProQuest

The screenshot shows the SCOPUS interface with a search result for 'Efficiently photoreduced'. An 'Export' dialog box is open, showing options to 'Choose your default reference manager or file type' (Mendeley, RefWorks direct export, RIS Format, CSV, BibTeX, Text) and 'Choose the information to export' (Citation information only). The 'Export' button is at the bottom.

SCOPUS

The screenshot shows the OVID interface with a search result for 'Export Citation List'. A dialog box is open, showing options to 'Export To' (RefWorks, Microsoft Word, PDF, .txt, Excel Sheet) and 'Select' (Citavi, EndNote, ProCite, Reference Manager, RefWorks, BRS/Tagged, Reprint/Medlars, RIS, XML). The 'Include' section has checkboxes for 'Link to External Resolver' and 'Include URL'. The 'Export Citation(s)' button is at the bottom.

OVID

# MANUAL ENTRY

- Fill out a form for bibliographic details
- Slow!
- Useful for personal communications or unpublished works

The screenshot shows a web-based form titled "Add New Reference" with a blue header bar. The form includes two dropdown menus at the top: "Fields used by" set to "Academic Medicine" and "and Reference Type" set to "Book, Section". A link "About this style" is next to the second dropdown. Below these, a message states: "The following fields are used by your selected output style. You can access additional fields below." The form contains several text input fields: "Authors:", "Section Title:", "Pub Year:", "Start Page:", "Other Pages:", "Editors:", "Book Title:", "Edition:", and "Publisher:". The "Section Title" and "Book Title" fields have rich text editors with formatting icons (bold, italic, underline, link, unlink, bulleted list, numbered list). At the bottom right, there are two buttons: "Save Reference" and "Save & Add New". A vertical scrollbar is visible on the right side of the form.

# UPLOADING FROM A TEXT FILE

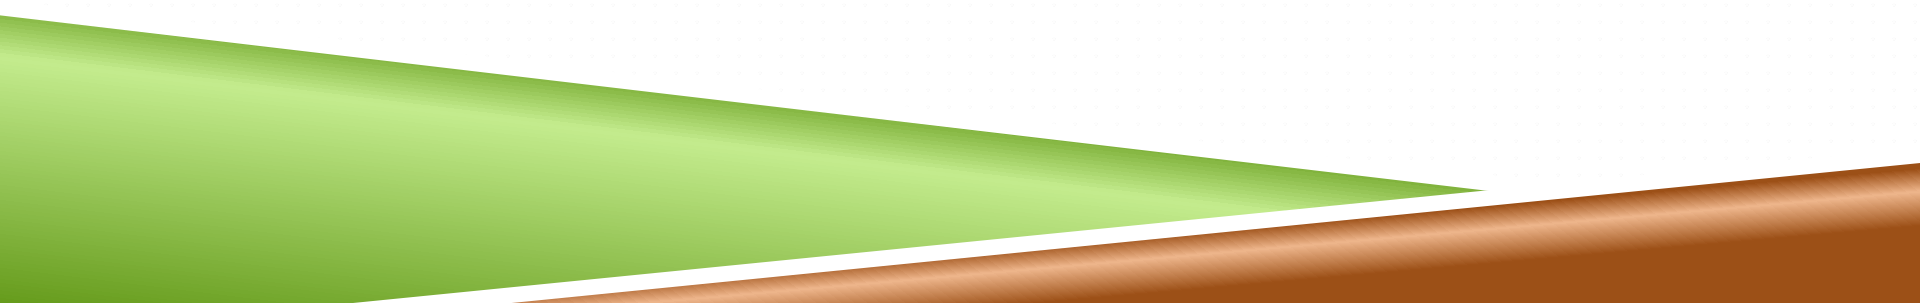

- ▶ Not all databases support direct export (e.g. PubMed)
  - 1. Select your references
  - 2. Export to a suitable text format
  - 3. Go to 'Import' in RefWorks
  - 4. Pick the text format from the built in filters
  - 5. Browse for the file and then import
- 

# SEARCH FROM REFWORKS

- ▶ A large number of library catalogues and some databases can be searched directly from RefWorks
  - 1. Go to the 'Search' menu
  - 2. Choose the 'Online Catalog or Database' option
  - 3. In the search screen that appears, choose the database or catalogue you wish to use
  - 4. Enter search terms and run the search
  - 5. Select records from the results to add to a chosen folder in your library
- 

# REFERENCES FROM A WEBSITE

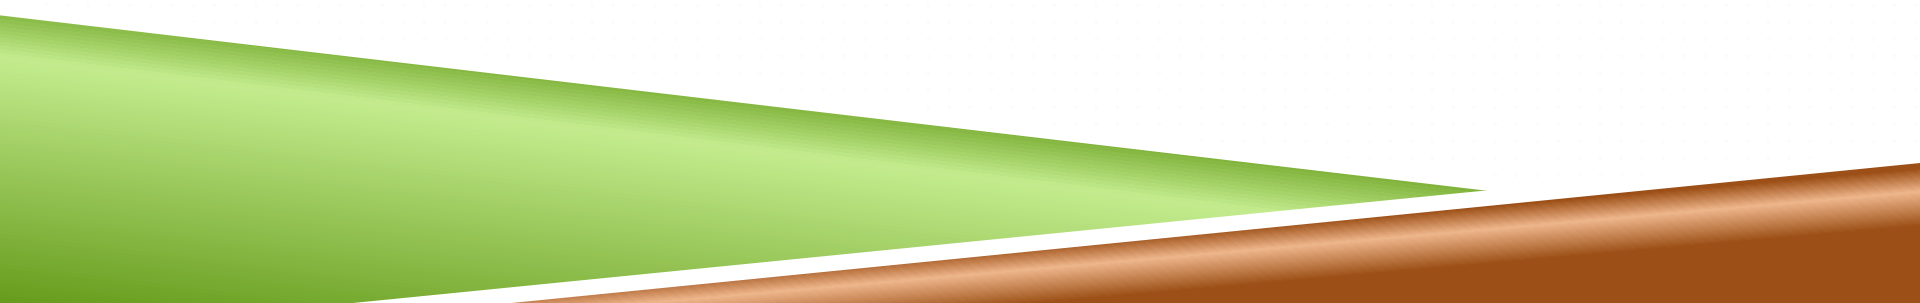

1. Install RefGrab-It plugin for Firefox or Internet Explorer
  2. Navigate to webpage
  3. Click RefGrab-It icon
  4. Webpage data and any references will be identified
  5. Select which items you want to add
- 

# EDITING YOUR RECORDS

- ▶ Correct details
- ▶ Add missing information e.g. Journal Abbreviations
- ▶ Add your own notes
- ▶ Attach a pdf copy of a paper or attach other documents related to the paper

# JOURNAL ABBREVIATIONS

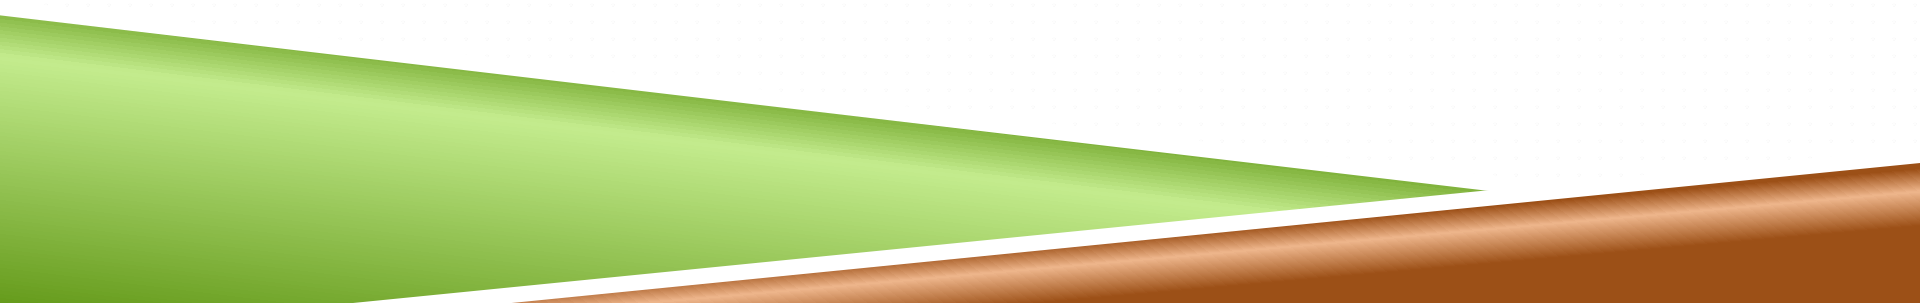

- ▶ Abbreviations required by certain citation styles
  - ▶ Often need to add journal abbreviations manually
  - ▶ Enter in the '*Periodical Abbrev.*' field
  - ▶ Find abbreviations online –
    - ▶ NLM PubMed Journal catalogue
    - ▶ UlrichsWeb.com
- 

# SEARCHING YOUR RECORDS

- ▶ Simple search from the home screen
- ▶ Advanced options from the search menu
- ▶ You can save your searches to run again later
- ▶ You can search attached pdf docume

# FINDING DUPLICATES

- ▶ RefWorks can help you find and remove duplicate records
  - ▶ Duplicate records can cause problems in your bibliography
  - 1. Click the 'View' menu
  - 2. Choose the 'Duplicates' option
  - 3. Select either 'Close' or 'Exact'
  - 4. RefWorks will show a list of duplicates
  - 5. Delete duplicates which you don't want
- 

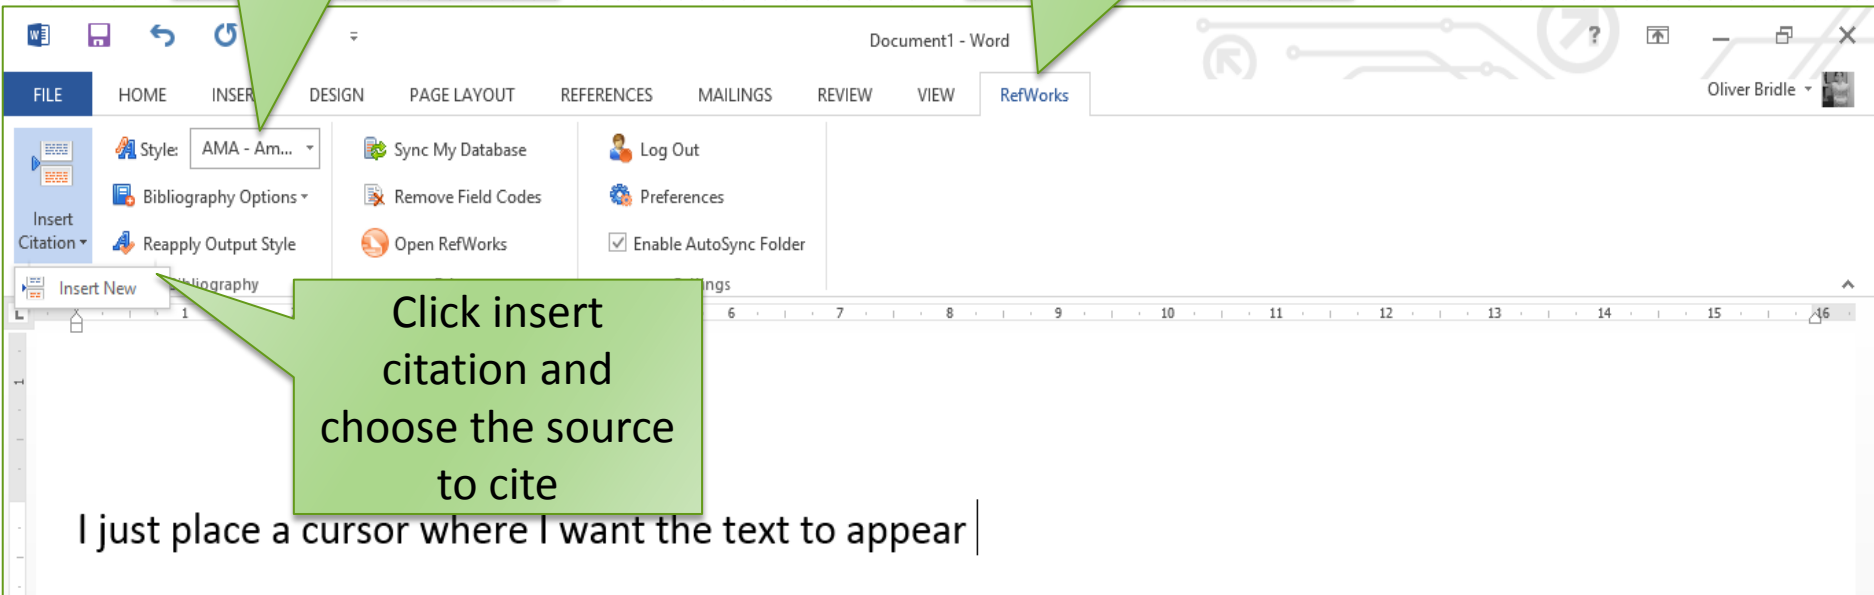

# ADDING CITATIONS 1

Choose a citation style

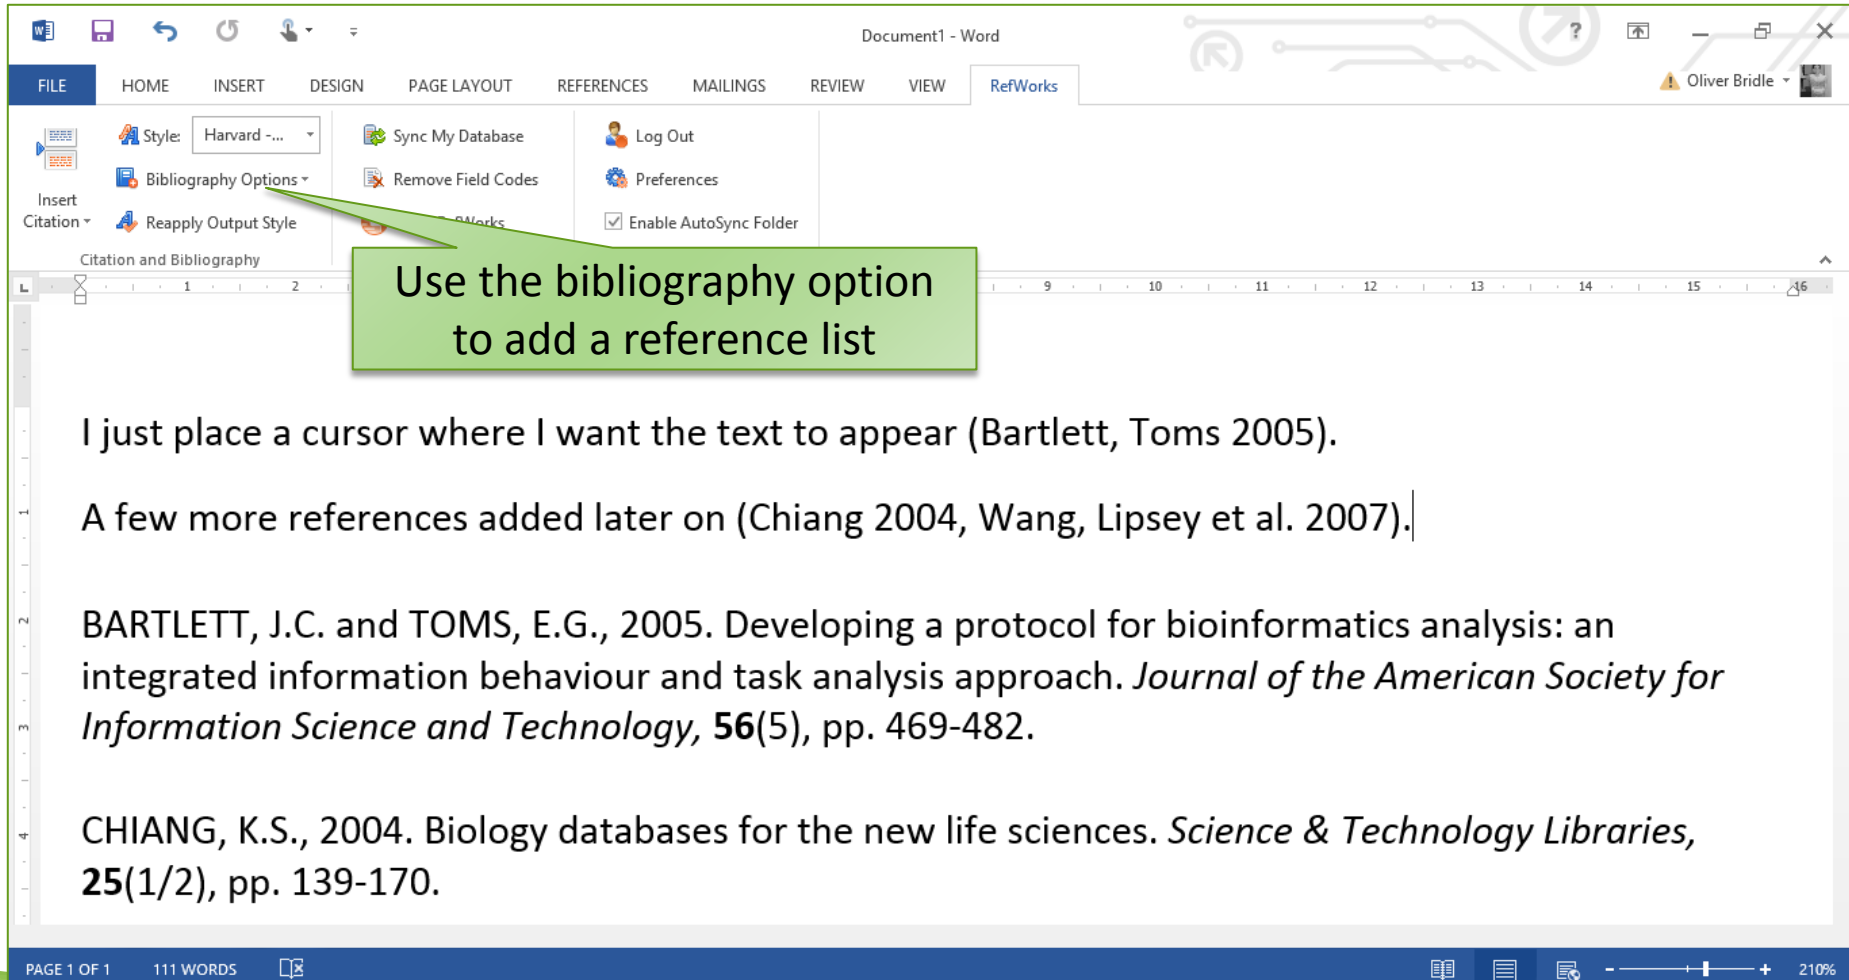

New RefWorks section on the ribbon

Click insert citation and choose the source to cite

I just place a cursor where I want the text to appear |

# ADDING CITATIONS 2

The screenshot shows the Microsoft Word interface with the 'RefWorks' ribbon selected. The ribbon includes options for 'Style' (set to Harvard), 'Bibliography Options', 'Reapply Output Style', 'Sync My Database', 'Remove Field Codes', 'Log Out', 'Preferences', and 'Enable AutoSync Folder'. A green callout box with a pointer to the 'Bibliography Options' button contains the text: 'Use the bibliography option to add a reference list'. The document text below the ribbon shows a cursor at the end of a sentence, followed by two paragraphs of references.

Document1 - Word

FILE HOME INSERT DESIGN PAGE LAYOUT REFERENCES MAILINGS REVIEW VIEW RefWorks

Style: Harvard -... Sync My Database Log Out

Bibliography Options Remove Field Codes Preferences

Reapply Output Style Enable AutoSync Folder

Citation and Bibliography

Use the bibliography option to add a reference list

I just place a cursor where I want the text to appear (Bartlett, Toms 2005).

A few more references added later on (Chiang 2004, Wang, Lipsey et al. 2007).

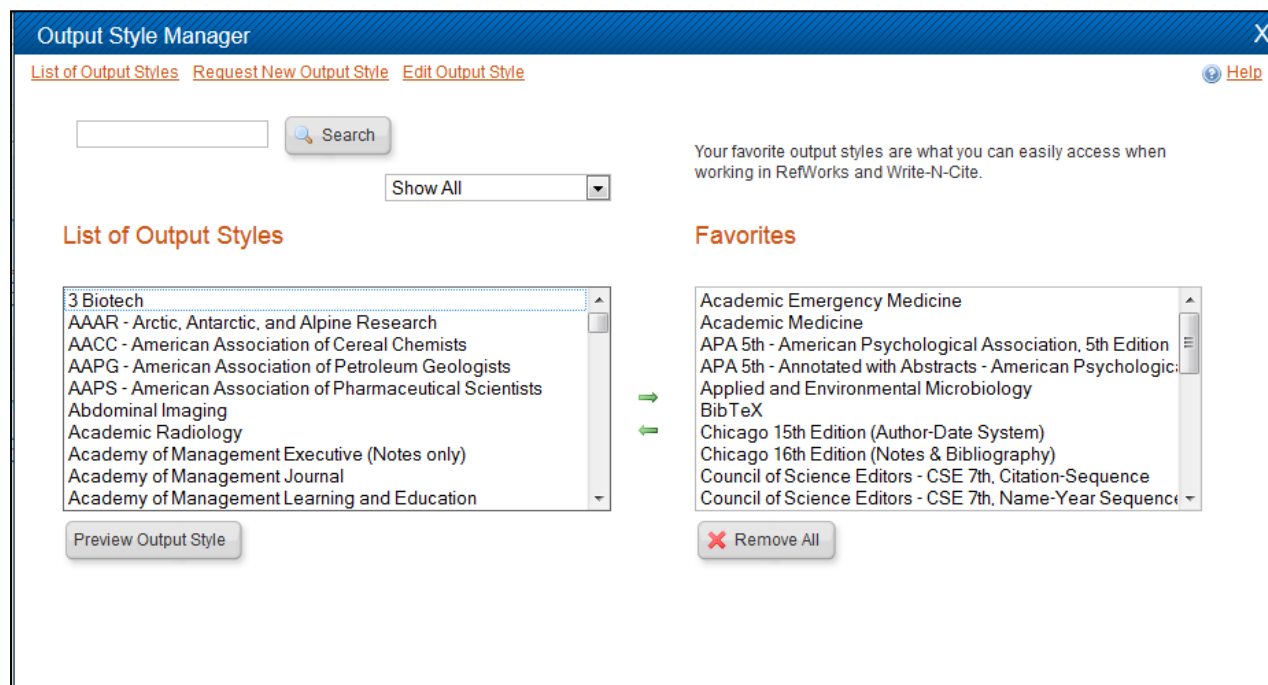

BARTLETT, J.C. and TOMS, E.G., 2005. Developing a protocol for bioinformatics analysis: an integrated information behaviour and task analysis approach. *Journal of the American Society for Information Science and Technology*, **56**(5), pp. 469-482.

CHIANG, K.S., 2004. Biology databases for the new life sciences. *Science & Technology Libraries*, **25**(1/2), pp. 139-170.

PAGE 1 OF 1 111 WORDS 210%

# ADDITIONAL CITATION STYLES

1. Click on the 'Bibliography' menu
2. Choose the 'Output Style Manager'
3. Search for and select styles to add to you favourite styles
4. Use the arrow icons to move a selected style across to your favourites

# REFWORKS PROS AND CONS

Pros	Cons
Access anywhere	Doesn't work off-line
Alumni access	Doesn't work on Linux
Works easily with lots of databases	Only works with MS Word
Customise bibliographic fields	Adding PDF files clunky

# WHAT IS MENDELEY?

- Free reference management package
- Web, desktop & mobile components
- Create, store, edit and share your own personal library of references
- Pull reference data from online databases
- Add citations to and automatically generate bibliographies for word-processed documents

# THREE FACES OF MENDELEY

## **Mendeley Web**

Access from any web  
browser

**Different interfaces to  
Mendeley provide different  
features**

## **Mendeley Desktop**

Install on your PC or  
Laptop

## **Mendeley App**

Get an App for  
iPad/iPhone or  
Android

# MENDELEY WEB

- A personal profile page
- Social networking
- Mendeley Papers catalogue
- View, edit and add to your reference library
- Find and manage groups
- Modify your account settings
- Use on any device with a web browser

# MENDELEY DESKTOP

- Add and import references
- Add web importer and word processor integration
- Add PDF files
- Add notes and annotations to PDFs
- Automate renaming and local storage of PDFs
- Work off-line

# MENDELEY MOBILE

- ▶ Official app for iPad/iPhone
  - ▶ Download through iTunes
- ▶ Third party apps for Android
  - ▶ Download through the Google Play Store
- ▶ Generally, mobile apps allow viewing but *not* editing of your library
- ▶ Handy reading on your smart phone/tablet

# SIGNING UP AND DOWNLOADING

- You need to sign up for a free account -
  - 2GB personal storage space + 100 MB shared.
- [www.mendeley.com](http://www.mendeley.com)
- Enter your details and then follow instructions to download the Desktop application for your OS
  1. The Mendeley Desktop application
  2. The Mendeley Web Importer
  3. Plugins for Word/LibreOffice Writer

# A QUICK TOUR OF MENDELEY

Toolbar and  
menus

List of documents in  
selected folder or group

Bibliographic information  
about the currently selected  
document

Navigate  
folders  
and  
groups

Filter by  
author,  
keywords  
etc

The screenshot shows the Mendeley Desktop application window. The interface is divided into several sections:

- Top Menu Bar:** File, Edit, View, Tools, Help.
- Toolbar:** Add Files, Folders, Share, Sync.
- Left Panel (My Library):** Contains a tree view for navigating folders and groups. It includes 'All Documents', 'Recently Added', 'Favorites', 'My Publications', 'Unsorted', 'Chemotaxis', 'Science Librarianship', 'Groups' (with 'Reference Management' and 'Create Group...'), and 'Trash' (with 'All Deleted Documents'). Below this is a 'Filter by Authors' dropdown menu showing a list of authors.
- Central Panel (All Documents):** A table listing documents. The columns are: Authors, Title, Year, Published In, and Added. The first document is 'Alon, U; Surette...' with the title 'Robustness in bacterial chemotaxis'.
- Right Panel (Details):** Displays bibliographic information for the selected document. It includes fields for Type (Journal Article), Authors (J. Lecal, C. Garcia-Fontana, F. Munoz-Martinez et al.), Journal (Environmental Microbiology), Year (2010), Volume (12), Issue (11), Pages (2873-2884), and an Abstract section.

Annotations with green arrows point to specific features:

- An arrow points from the 'Folders' toolbar button to the 'My Library' panel.
- An arrow points from the 'List of documents in selected folder or group' text to the central document list.
- An arrow points from the 'Bibliographic information about the currently selected document' text to the 'Details' panel.
- An arrow points from the 'Filter by author, keywords etc' text to the 'Filter by Authors' dropdown menu.

At the bottom of the window, it says '1 of 18 documents selected'.

# WEB IMPORTER

- Make sure web importer is installed
- Conduct your search in a database or catalogue
- When you have the results list, click the '**Import to Mendeley**' button in your browser
- Select the references you want to import on the provided list
- Mendeley will attempt to simultaneously download the PDF file of the article along with the metadata

# MENDELEY AND DATABASES

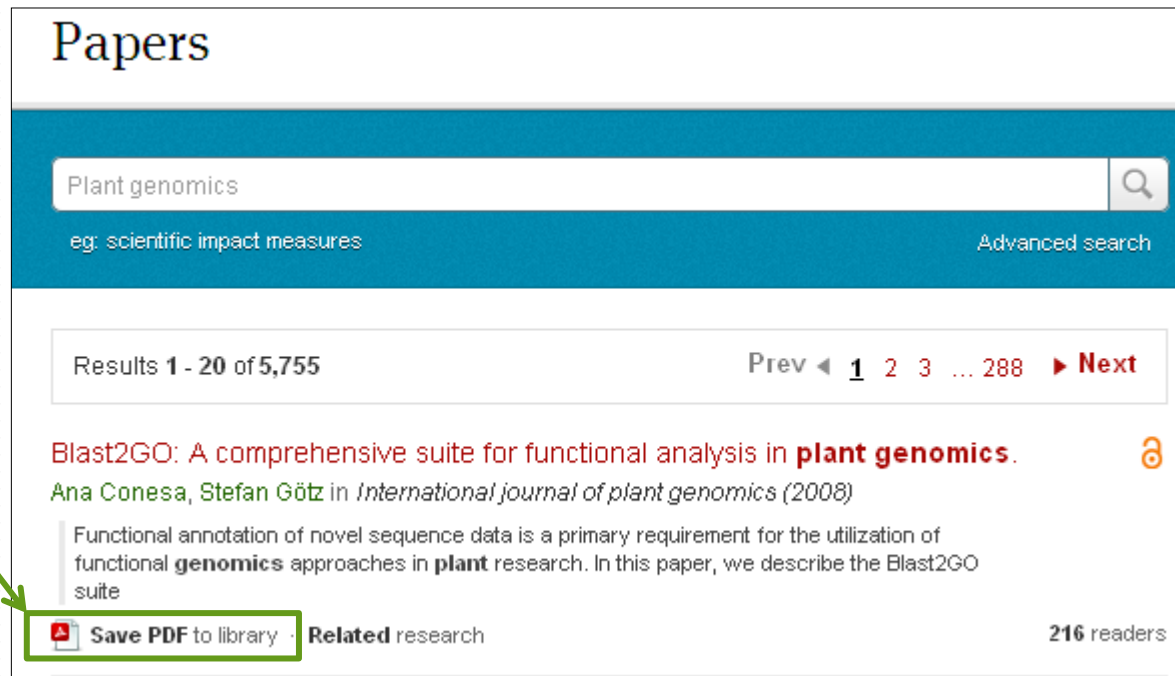

Work	Don't Work
Google Scholar	JSTOR
SCOPUS	ProQuest Platform
PubMed	SOLO
Web of Science	
COPAC	
ArXiv	
WorldCat	
Ovid Platform	

# PROBLEM DATABASES

- Use the Mendeley Papers Catalogue
  - Often you can export a text file in a standard format like .RIS or .BIB from the database
1. Produce the text file from your database and save to your PC
  2. Use the '**Add Documents**' button to choose to add references from a file
  3. Pick the file you created from your database

# MENDELEY PAPERS CATALOGUE

- References (*not PDFs*) added to Mendeley libraries by users are anonymously collected together
- This catalogue can be searched and records added to your own library
- Open-Access PDFs can be downloaded directly

The screenshot displays the Mendeley Papers Catalogue interface. At the top, the word "Papers" is visible. Below it is a search bar containing the text "Plant genomics" with a magnifying glass icon to its right. Under the search bar, there is a suggestion "eg: scientific impact measures" and a link to "Advanced search". Below the search bar, a results bar shows "Results 1 - 20 of 5,755" and navigation links "Prev", "1", "2", "3", "... 288", and "Next". The first result is titled "Blast2GO: A comprehensive suite for functional analysis in **plant genomics**." in red text, with an orange open access icon to its right. Below the title, the authors "Ana Conesa, Stefan Götz" and the journal "in *International journal of plant genomics* (2008)" are listed. A green arrow points from the left towards the "Save PDF to library" button, which is highlighted with a green box. Below the button is the text "Related research". At the bottom right of the result card, it says "216 readers".

Papers

**Blast2GO: A comprehensive suite for functional analysis in **plant genomics**.**

Ana Conesa, Stefan Götz in *International journal of plant genomics* (2008)

Functional annotation of novel sequence data is a primary requirement for the utilization of functional **genomics** approaches in **plant** research. In this paper, we describe the Blast2GO suite

 Save PDF to library · Related research

216 readers

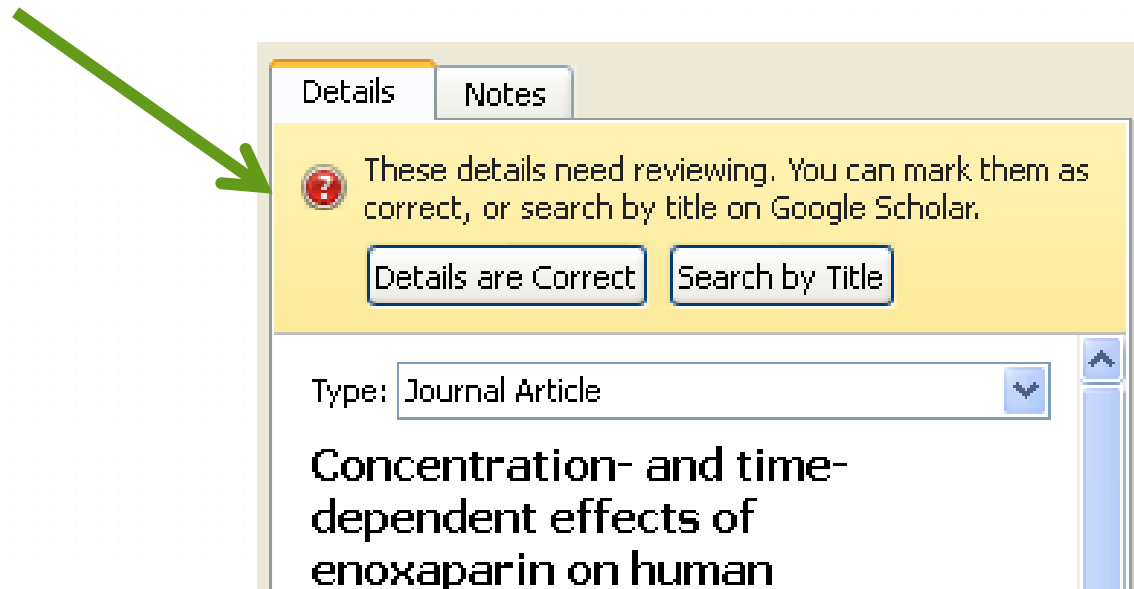

# WEB PAGES

- The web importer can be used to take snap-shots of web pages
- Automatically collects important data like an accurate URL and an access date & time
- You can add extra details such as the site author

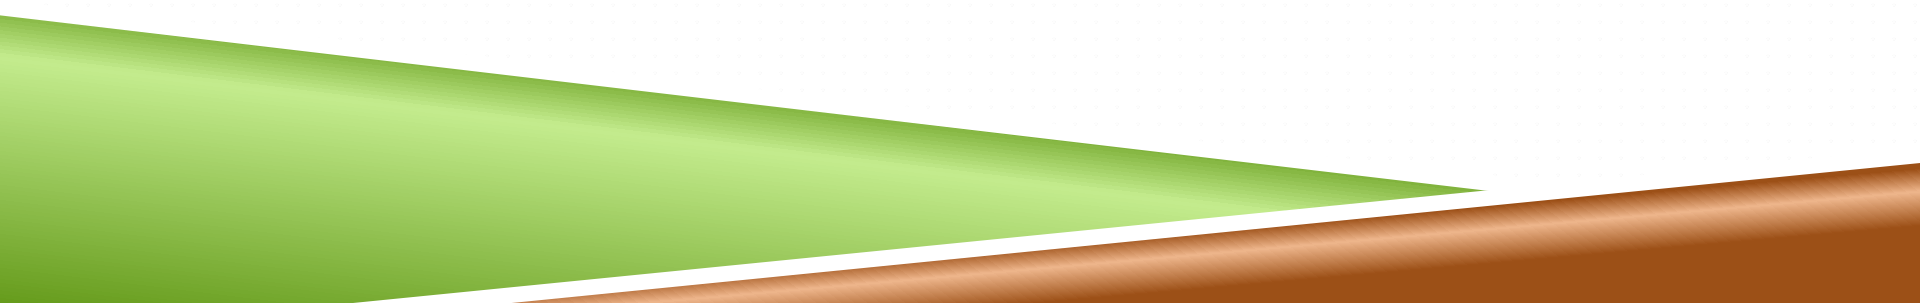

# PDF FILES

- Mendeley can retrieve information for PDF files
- Drag and drop your PDF into Mendeley desktop
- Mendeley will try and retrieve the bibliographic data
- Review the data carefully!!!!

# ORGANIZING REFERENCES

- You can create **Folders** and **Groups**
    - **Folders** allow you to organize your references e.g. by project or essay
    - **Groups** allow you to collaborate and share particular references
  - Move by drag & drop
  - Mark items '**As Read**' or '**As Favourites**'
  - Alter sort order of references
- 

# SYNC MENDELEY

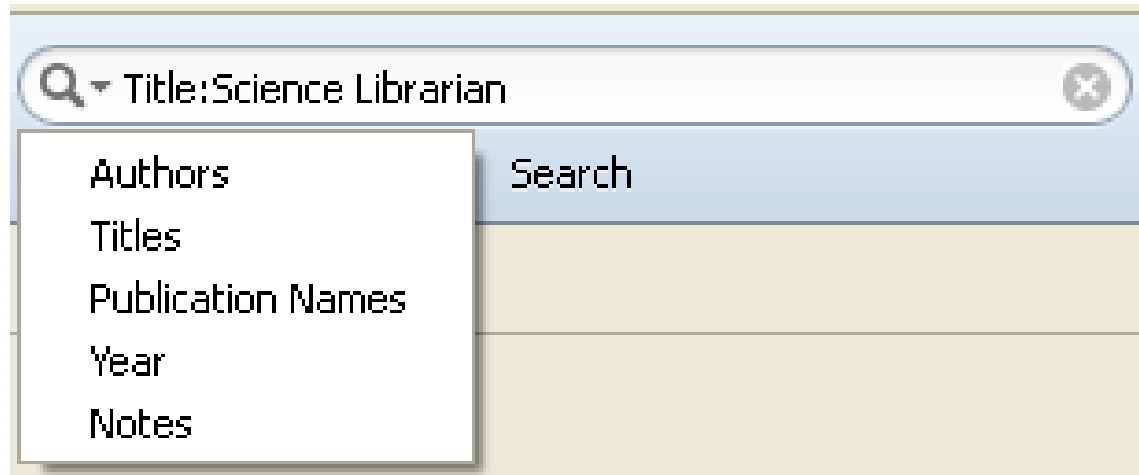

- When you open Mendeley Desktop it will sync with your library in the cloud
- The desktop software operates in an 'off-line' mode
- Synchronisation between desktop and web **NOT** automated
- Remember to hit the '**Sync**' button!

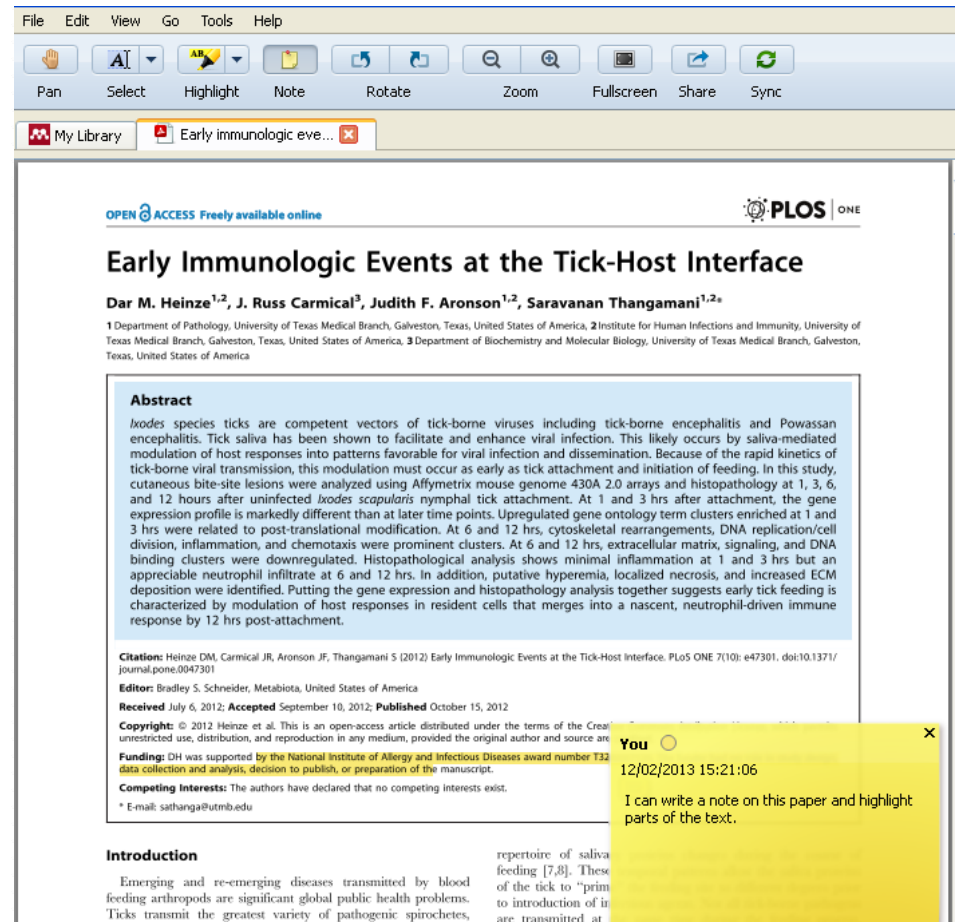

# SEARCHING YOUR LIBRARY

- You can search for documents in your Mendeley library
- You can also filter your records within a folder
- You can add your own tags to records to make them easier to find

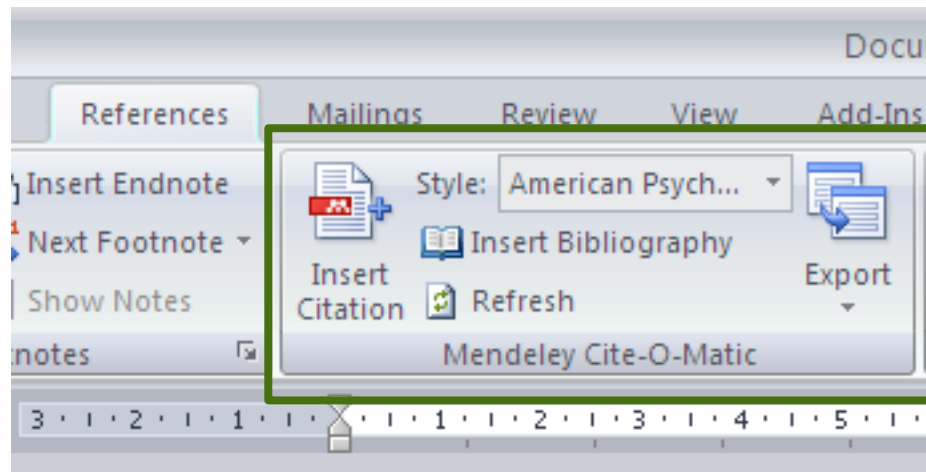

# WORKING WITH PDF FILES

- PDF viewer built into Mendeley
- View, annotate and highlight PDF documents directly
- You can share the annotations in groups
- You can't print PDFs from Mendeley but you can export them

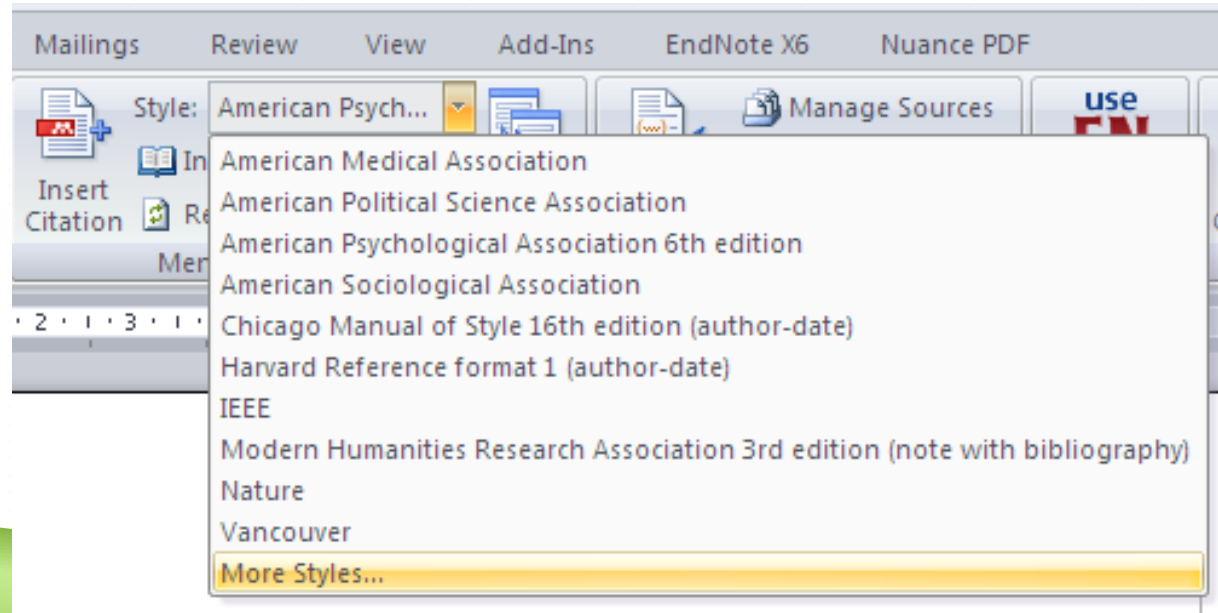

# ADD CITATIONS TO DOCUMENTS

- Make sure that the Word/LibreOffice plugin is installed
- Find the new buttons in your Word Processor
- Click the '**Insert Citation**' button

# CREATE A BIBLIOGRAPHY

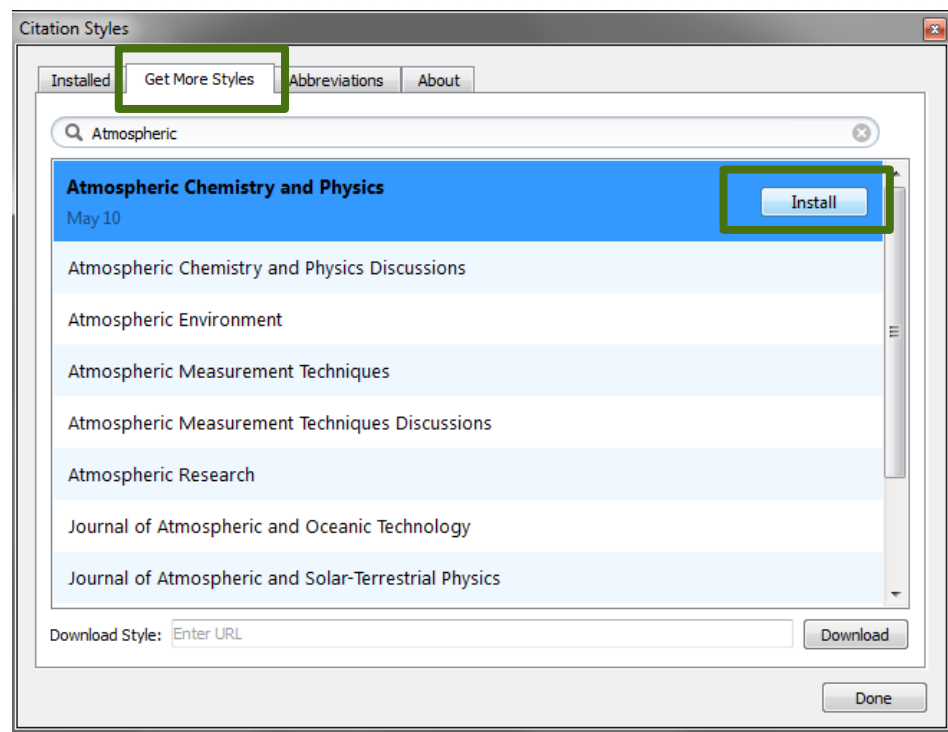

- Click the '**Create Bibliography**' button
- Changing your style will automatically reformat your citations and bibliography
- To add a new style, pick '**More styles...**' option
- Then choose the '**Add Styles**' tab and search for the style you want

# ADDITIONAL CITATION STYLES

- ▶ A small number of citation styles are installed by default

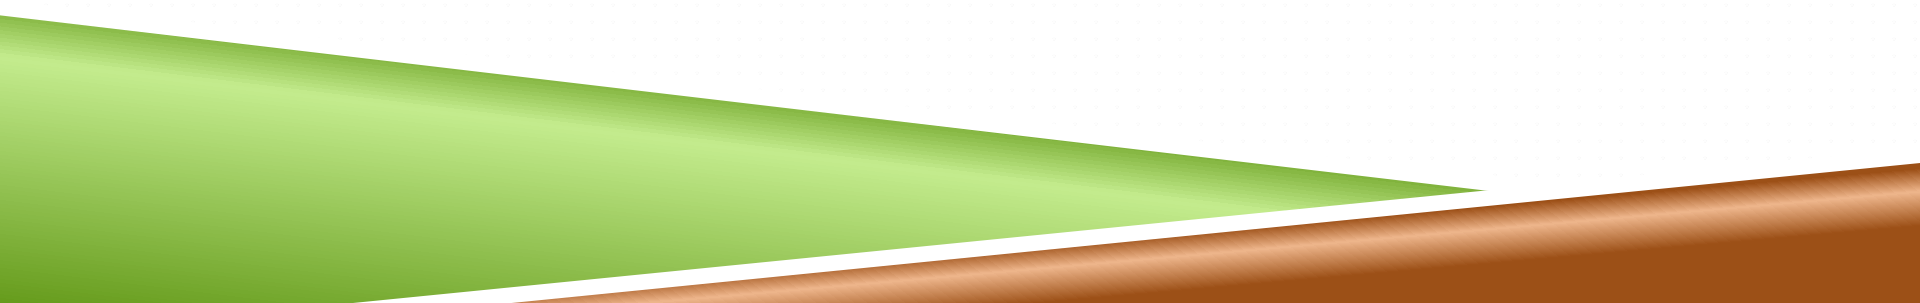

1. Click the 'View' menu
2. Choose 'Citation Styles' and then 'More styles'
3. On the screen that appears choose the 'Get More Styles' tab
4. Search for the style you want and click on the styles name
5. Click 'Install'
6. Click 'Done'

# ABBREVIATING JOURNAL TITLES AUTOMATICALLY

- ▶ Mendeley can carry out journal abbreviations automatically
- ▶ You can choose to have abbreviations with periods or without
  - ▶ J Mol Biol *or* J. Mol. Biol.
- ▶ You can create custom abbreviations if you wish and your own lists

# SOCIAL MENDELEY

- ▶ Mendeley Web provides you with a Facebook like profile
    - ▶ Publications
    - ▶ Research interests
    - ▶ CV
  - ▶ You can search for other contacts and join groups
  - ▶ You can get notifications about group activity and send messages
  - ▶ Connect Mendeley to Twitter
  - ▶ Lets take a quick look...
- 

# CREATING GROUPS

- Set up through Mendeley Web or Desktop

Public	Private
Share reference libraries with the world or invited participants	Share reference libraries, documents and annotations
Collaborate on reference libraries	Collaborate on reference libraries
Unlimited	Limited by account

## Create a group

Use groups to collaborate with other researchers in your field, share research papers, and change the world.

Privacy settings ☒ Public Group (share references only) ☐ Private Group (share references + full-text files)

☒ **Open**  
Public can contribute; good for crowd-sourcing reading lists

☐ **Invite-only**  
Public can follow only; good for sharing references or reading lists

Group name

Group description

# HOW MANY GROUPS?

- ▶ With a free account –
  - ▶ Public groups
    - ▶ Unlimited
  - ▶ Public group (invitation only)
    - ▶ 1 group
    - ▶ Max. 3 members
  - ▶ Private group
    - ▶ 1 group
    - ▶ Max. 3 members
    - ▶ 100 MB shared storage space (attached files automatically synced)

# FIND DUPLICATES

- Mendeley can help you remove or merge duplicated references in your library

Confidence measurement of similarity

1 set of duplicates found in 'All Documents'

Authors	Title	Confidence
Comp, Plos	Noise and chemotaxis	
Comp, Plos	Noise and chemotaxis	
Comp, Plos	Noise and chemotaxis	

Duplicate set to be merged or deleted

Choose fields to merge

**No conflicting fields**  
You can safely merge the 2 duplicates in this set.  
[More info...](#)  
**Confirm Merge**

Type: Journal Article

**Noise and chemotaxis**

Authors: P. Comp

[View research catalog entry for this paper](#)

Journal: *Nature*

Year: 2007

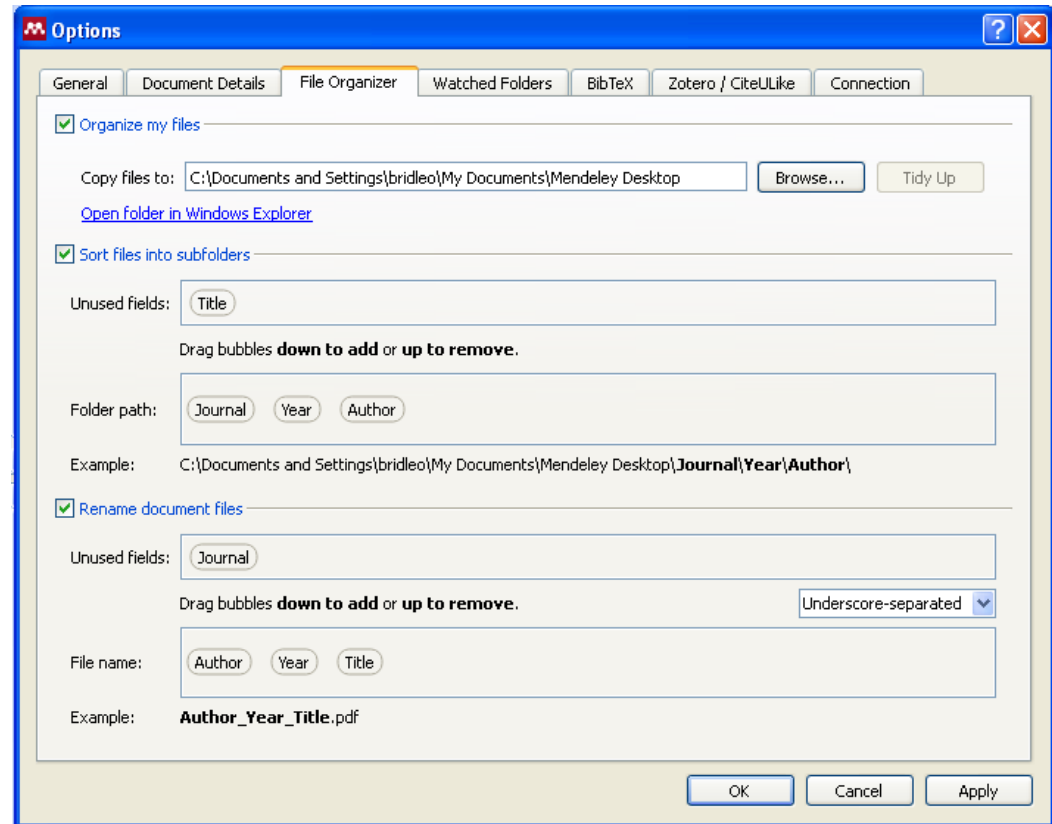

Volume: 2

Issue: 11

Pages: 1407-1418

# ORGANISE YOUR PDFS

- Mendeley can 'watch' a local folder for new PDFs
- Automatically re-name PDF files
- Organise files into a folder hierarchy on your PC

# ACCESS TO OXFORD RESOURCES

- ▶ Mendeley can link to Oxford's catalogue and e-resources
- ▶ On Mendeley Web go to -
- ▶ **My Account >> Account Details >> Sharing/Importing**

## Edit Library Access Links

You can get quicker access to more papers on Mendeley by adding libraries you are a member of.

### Your library access links:

	Set as default
University of Oxford - <a href="#">remove</a> <a href="http://oxfordsfx-direct.hosted.exlibrisgroup.com/oxford">http://oxfordsfx-direct.hosted.exlibrisgroup.com/oxford</a>	<input checked="" type="radio"/>
<a href="http://openurl.ac.uk">openurl.ac.uk</a>	<input type="radio"/> default
<a href="#">WorldCat®</a>	<input type="radio"/> default
<a href="#">Google Scholar</a>	<input type="radio"/> default

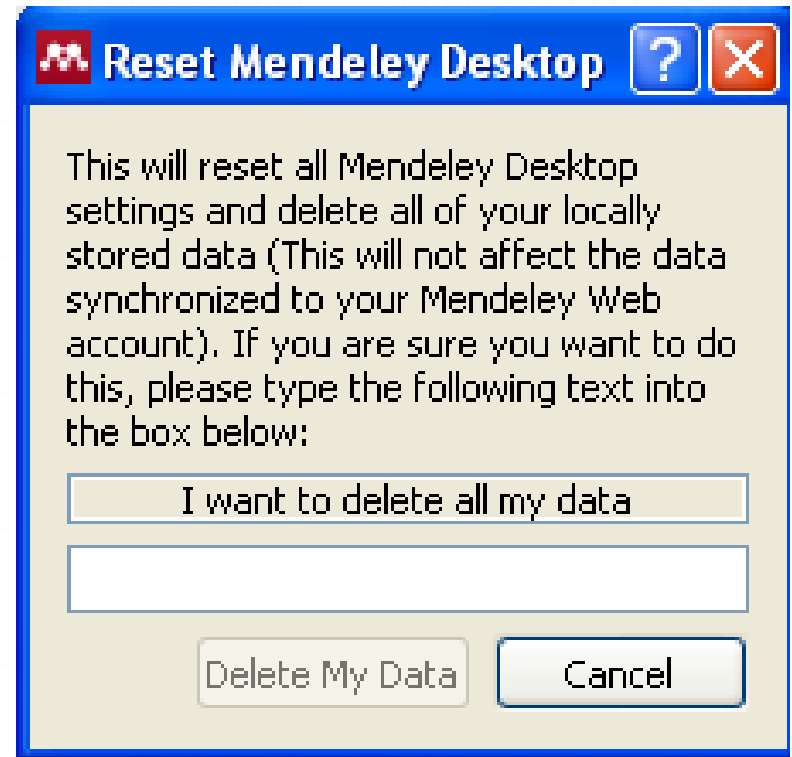

Add library manually

Choose library from list

# RESETTING MENDELEY DESKTOP

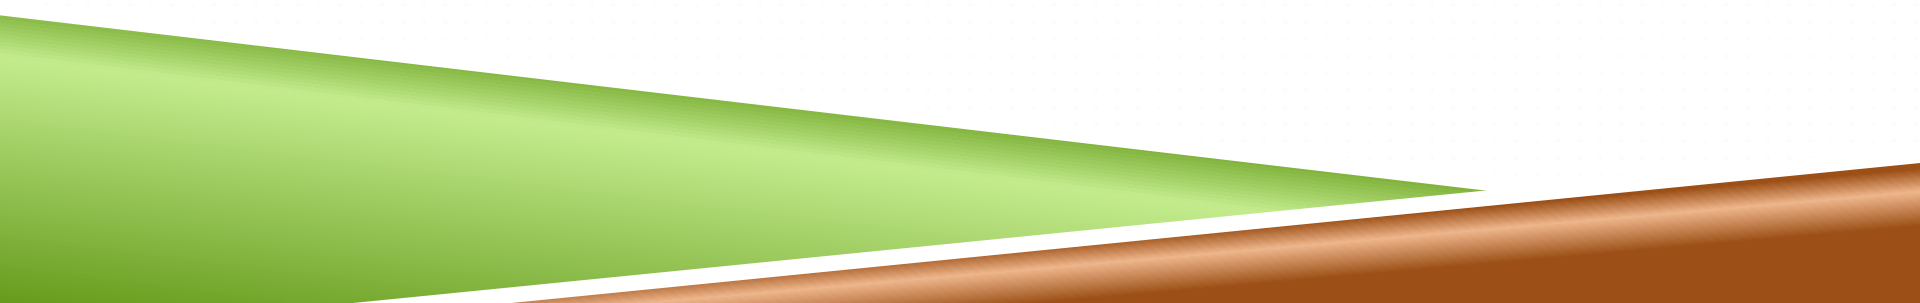

- ▶ You can sign-out of Mendeley but this leaves a local copy of your data
- ▶ Resetting clears your data and login details
- ▶ **Important on shared computers!**
- ▶ **Help >> Reset Mendeley Desktop**

# MENDELEY PROS AND CONS

Pros	Cons
On-line & off-line	Sync not automatic
Linux, Mac, Windows	Limited bibliographic fields
Sharing/collaboration tools	Limited citation styles available
Adding PDFs easy	Only free for basic account

# THINGS TO CHECK

- ▶ Does the software support the citation style(s) I need? Can I edit styles?
  - ▶ Does the software allow me to edit all the data fields I want?
  - ▶ Will I have enough space (or am I willing to pay)?
  - ▶ Can I install this software on the computers I use?
  - ▶ Which word processors does the software support?
  - ▶ Can I work on and off-line?
  - ▶ What sort of files can I import? (.ris, .bib etc)
  - ▶ Can I easily export references from my favourite databases?
- 

# GETTING HELP

- ▶ Other iSKILLS and IT Services courses
- ▶ Reference management LibGuide
  - ▶ Quick summaries of different packages
  - ▶ Contact details for staff who can help
  - ▶ Guides and instructions for different software
  - ▶ <http://libguides.bodleian.ox.ac.uk/reference-management>
