Research Skills Toolkit

"IT & library skills and services for your research"

Research Skills Toolkit

Toolkit sessions will be held in 8th week Michaelmas and 1st week Hilary - these are free hands-on 2 hour workshops for research students. Topics covered include reference management software, submitting your thesis to ORA and measuring research impact. You will also meet with subject specialists for help and guidance on further training. Read more and book your place at <http://tinyurl.com/8blpbct>

Engage: Social Media Michaelmas

IT Services and Liz McCarthy (Bodleian Libraries) have developed the **Engage: Social Media Michaelmas** programme - details can be found at <http://www.oucs.ox.ac.uk/itlp/engage/>. This is designed to complement **23 Things for Research**, a University-wide self-directed online programme for researchers, students and staff that covers 23 social media and digital communications 'things' over a period of ten weeks (details at <http://blogs.bodleian.ox.ac.uk/23things/>).

New Reader Guides

We have 2 new guides available online:

Cairns Library Refurbishment UPDATE

Our new book collection is now finished and is fully up and running. To finish laying the new carpet we will be forced to close the library for one night, from 7pm on Monday 5 November.

Over the next two or three weeks we will also be installing new shelving and some new quiet study desks and study carrels.

CILIP Health Libraries Group Conference July 2012: Health libraries under the microscope

This year's Health Libraries Group Conference was themed around these areas:

- Physics of information technology use
- Chemistry of collaboration & networking
- Biology of library services
- Anatomy of evidence based practice

Owen Coxall

Our Outreach Librarian Owen Coxall presented a paper entitled '**Innovate or Wait? Sharing Lessons Learnt from the Introduction of an iPad Lending Service**'

Owen writes: "I explained how we had set up the iPads so we can loan them to our users, detailed our usage statistics, and what we were thinking of doing next. I also described the results of a survey we ran looking at how our users make use of mobile technology, highlighting the trends we found. I was especially pleased with the following mentions on Twitter at the end of my presentation!

- Claire @beakybeecroft: #hlg2012 Very poised Owen, very poised! Really interesting talk and v. relevant at a time when tablets are about to go berserk
- Emily H @emilylovedhim: Wise words from @ocoxall - find out what others have done before embarking #hlg2012

Also the conference a great opportunity to find out what other Medical Libraries are doing, and left me filled with enthusiasm and some new ideas – watch this space!"

EndNote sessions

Are references and bibliographies giving you a headache? Harvard and Vancouver putting you in a spin? If you're dealing with references and writing, we'll help you get the most out of Endnote, saving you time and making life easier.

Endnote X5 is a popular reference management programme, and is available on library computers which use the university network. It lets you store, organise and retrieve your references, cite them in your dissertations and articles, and produce bibliographies and reading lists in the style of your choice.

Librarians at our two sites will be running training sessions for EndNote X5 in November. At the end of the session you'll be able to import references from PubMed and Google Scholar, de-duplicate references in an Endnote Library, and be able to cite references in Word documents.

Email hcl-enquiries@bodleian.ox.ac.uk to sign up for one of the following sessions:

Knowledge Centre 8th November 10-11am

Knowledge Centre 15th November 10-11am

Cairns Library 16th November 10-11am

Cairns Library 22nd November 3-4pm
