Prerequisites for using OWL

- You must be a member of the University of Oxford (staff or student) to use OWL
- You must have an active Remote Access account, which can be set-up here: http://help.it.ox.ac.uk/network/remote/index
- You must have Cisco VPN Client software installed and configured on your laptop

How to install VPN Client

1. Go to https://register.oucs.ox.ac.uk
2. Log in, using your University of Oxford SSO details
3. Click on ‘Software’ in the left-hand column
4. In the ‘Please select a software package’ box, click VPN Client
5. Click ‘Submit’
6. Choose the appropriate VPN Client for your operating system (e.g., Windows 7)
7. Save the file to your laptop
8. Double-click the file and install it
9. Once the install is complete restart the laptop if you are prompted to do so

How to use VPN Client

Click here

- Start menu > Programs > Cisco Systems > VPN Client

Enter your Remote Access account details and click ‘OK’
