Additions to Alexander Library Archive:

Richard Patrick (Derek) Goodwin (1920-2008) - A box of miscellaneous correspondence covering the period 1986-2005. Derek Goodwin, as he was known, was a British ornithologist who wrote seminal works on estrilid finches, crows and pigeons and was an expert on bird behaviour.

Rev. Peter Harold Trahair Hartley (1909-1994) - A box of miscellaneous correspondence, journal offprints, newspaper cuttings and photographs.

The Rev PHT Hartley was active in conservation (or as it was known earlier in the century 'bird protection') circles throughout much of his life. He was one of a small number of parson-naturalists to have a university degree in a biological subject, gaining a first-class honours degree in Zoology from London.

Open Access update

Since the Finch Report came out last June things have been changing rapidly in Open Access. Government and RCUK initiatives have brought in new funding mechanisms that will come into force on 1 April 2013.

Make sure you know the difference between "Going Gold" and "Going Green" by attending sessions given by your subject librarians over the coming weeks. To find out what's happening and to contact us with any queries (online form, email or 'live chat') visit the new website: <http://openaccess.ox.ac.uk>.
