## NHS Athens for Oxford Medical Students

All medical students in England are entitled to an **NHS Athens Account** for the duration of their course. The resources available are those purchased nationally such as the *BNF App*, but do not include resources acquired for local NHS Trusts. See

[www.evidence.nhs.uk/nhs-evidence-content/journals-and-databases](http://www.evidence.nhs.uk/nhs-evidence-content/journals-and-databases).

All fourth year students should by now have received an email from "Eduserv Athens" advising that an NHS Athens account has been set up. Just click on the link in the email to activate your NHS Athens account and set up a password.

If you need further information or assistance with NHS Athens please contact [hcl-athens@bodleian.ox.ac.uk](mailto:hcl-athens@bodleian.ox.ac.uk).

## Data Support Services For Researchers

Research Data Management (RDM) is an increasingly important element of research projects, so have you considered how to store data securely? What does your funder expect you to do with your data? Can you get help with costs?

If you're looking for answers to these questions or have any others about RDM, have a look at <http://researchdata.ox.ac.uk>. This is designed to support researchers with their research data management and sharing activities.
