## Dual screen and chair trials

The Cairns Library in the John Radcliffe are currently undertaking a couple of trials and we would be interested to hear reader opinions:

- **Dual Screen Trial**

We are trialling a dual screen on one of the Bodleian Reader PCs with a view to rolling this out to other Bodleian Reader PCs in the future.

- **Chair Trial**

We are currently looking at revamping the comfy seating area in the Cairns Library, and are trying out some chairs that have been lent to us for a short while (please be careful with them!).

Comments forms are available in the Cairns and we would be grateful for your feedback!

## Did you know you can access full text journals via PubMed using PubMed@Oxford?

Want to find full text articles more quickly in PubMed? Then take a look at **PubMed@Oxford** - <http://tinyurl.com/pubmedoxford>. It's just the same as the normal PubMed search page but it automatically identifies all of the articles that are available in full-text to members of the University.

## 3D/VR event at the RSL

Find out more about the RSL's **3D printing** service and **VR** equipment at a free drop-in session in the Entrance Hall Lounge on Wednesday 21 November, 1-4pm.

## PHARMACIDE ARTS -

### Fake medicine : the disease of greed

The RSL is pleased to host this exhibition of 14 prints illustrating the global health impact poor quality medicines have on people's lives. The works were created by several artists from South East Asia. The exhibition was recently presented at the first ever 'Medicine Quality and Public Health' international conference, organised by the Infectious Diseases Data Observatory, the Centre for Tropical Medicine and Global Health, the Mahidol-Oxford Research Unit at the University of Oxford and the Global Public Health Program of the United States Pharmacopeia. The exhibition is on display in the Hooke stairwell and will be open until 4 January 2019. Further information on medicine quality is available on the IDDO website at [www.iddo.org/research-themes/medicine-quality](http://www.iddo.org/research-themes/medicine-quality) and the podcast [www.ndm.ox.ac.uk/paul-newton-poor-quality-medicines](http://www.ndm.ox.ac.uk/paul-newton-poor-quality-medicines).
