ACTIVITIES FOR ALL AGES UNLESS STATED OTHERWISE

1 Weston Library, Bodleian Libraries, 11am–4.30pm

11.15am - 12.15pm

Drawing together with Chris Riddell

Sign in on the world's longest visitor book and draw alongside famous and budding illustrators. See Chris draw his Laureate's Log live and large!

2–4.30pm Create a bibliotopia

Transform the Bodleian into your own dream library. Documentary drawing masterclass with artist Adam Dant, official recorder – in drawings – of the recent General Election, and renowned for his acute observations of society. Ages 8+. Booking required at www.bodleian.ox.ac.uk/create-a-bibliotopia.

2–4.30pm Five frames of genius

Discover digital drawing with animator Angus Dick. Produce and screen a collaborative animation for the Library's big screen using Samsung tablets. Ages 8+. Booking required at www.bodleian.ox.ac.uk/five-frames-of-genius.

Workshops inspired by the *Marks of Genius* exhibition run on a drop-in basis from 11am–4.30pm:

Drawing with camera obscura

Experience the magic of drawing with this historic tool, thanks to the Museum of the History of Science. Be inspired by beautiful buildings and use your drawing to create a linocut print.

Printing workshop

After capturing an image of Oxford with a camera obscura, participants can cut a section in lino and print the image with printer Richard Lawrence, adding a souvenir message on the wooden press.

Robotic portraiture

International digital artist Patrick Tresset has trained his robots to draw portraits. Pose for 20 minutes and see if they can capture your likeness.

Make your own unique artist book with Studio Hato

Meet at the Information desk for a 30-minute session every half hour.

The Same River Twice (video)

Tamarin Norwood and Anton Viesel's video contrasts romantic and sceptical attitudes towards genius. Drawing an analogy between man-made marks and the natural topography of rivers, it traces the course of lines from documents in *Marks of Genius*.

Sketch for survival

Join artist Claire Duffy to observe the beauty of some of the world's endangered birds. Then make postcards to appeal for help to ensure the birds' survival.

3D Mapping

Help artist Catherine Watson to construct a 3D map of Oxfordshire from the visual language of maps – dots, dashes, lines and colours. Take inspiration from the Bodleian's unique collection of maps.

2 Radcliffe Square, 11am–4pm

Yarn-storming

Join woolly street artist Deadly Knitshade in conjuring a street art story with just wool, easy-peasy French knitting and a lot of imagination. Learn a new skill and bring out your inner graffiti artist.

3 Museum of the History of Science, 12 noon–4pm

X-ray Line

Join artists from Oxford Brookes University and others to experiment with 3D drawing inspired by Harry's world of X-ray vision and atomic structure. Open to all.

4 The Story Museum, 10am–5pm

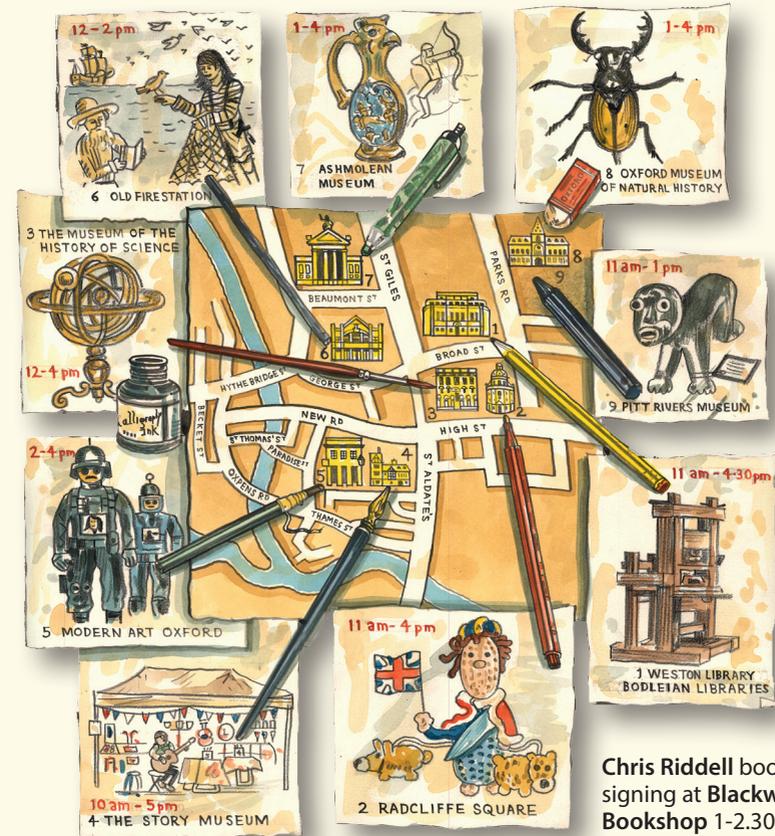

The Story Museum entry: £7.50 adults, £5 children/concessions. Exhibition including *Draw Me a Story* featuring work by Quentin Blake, Mini Grey, Emily Gravett, Korky Paul & Yasmeen Ismail. Visit comic artist Neill Cameron (The Phoenix) in the Illustrator Zoo!

10.30am–4.30pm Ready, Steady, Colour!

Book a table at the world's most colourful café, hosted by artist Anna Bruder. Meet wacky waiters, order a drawn dinner and have fun decorating it with ketchup paint and salt 'n' pepper glitter! Interactive fun for ages 3+ in the Courtyard. Free, but booking advised. Visit www.storymuseum.org.uk
