## KASEMAKE BOXES AND FOLDERS

The board from which Kasemake boxes and folders are made is low in reducible sulphur and other oxidising elements; is free from optical brightening agents, and is laminated with a specially produced pH 7, plasticiser-free, EVA adhesive. The board is lightfast – 5 to 6 on the blue wool scale and the paper is buffered with calcium carbonate to a pH value of 7.5 to 8.5.

Items less than 15 mm thick are placed in 650 micron folders; items between 15 and 25 mm are placed in 1000 micron folders; and items thicker than 25 mm are placed in 1250 micron boxes.

Boxes and folders can be labelled inside and out free of charge

### PRICES as of August 2020

There are two price plans:

Price plan **one** is for when the client provides dimensions • Price plan **two** is for when we measure material\*

\*A cleaning service can be incorporated in price plan two at an extra charge per box.
