Preparing for life after Oxford – NHS online resources for new doctors

If you're starting work in the NHS this summer and want access to online databases, ebooks and full text online journals then you need to know about NHS OpenAthens, the username and password system used by the NHS to provide access to online resources.

Access is available from anywhere with an Internet connection. Nationally-available resources include bibliographic databases such as Medline and Embase, as well as hundreds of online textbooks and journals and tools such as The BNF. Your OpenAthens account also gives you access to resources purchased by your local Trust library service. You can register for OpenAthens at <https://openathens.nice.org.uk/> as soon as you're in post in the NHS. If you register from a PC on the NHS network or with an NHS email address, your account will be created automatically and immediately. For more information or to get a demo or hands-on practice before you leave Oxford then just contact us at hcl-enquiries@bodleian.ox.ac.uk.

Reference management help

The Bodleian Libraries now have a dedicated enquiry service covering all aspects of reference management. Please see <http://libguides.bodleian.ox.ac.uk/reference-management/contact-us> for details.

Access full text journals via PubMed using PubMed@Oxford?

Want to find full text articles more quickly in PubMed? Then take a look at PubMed@Oxford - <http://tinyurl.com/pubmedoxford>. It's just the same as the normal PubMed search page but it automatically identifies all of the articles that are available in full-text to members of the University.

Green Impact

The RSL is participating in the NUS Green Impact scheme (<http://sustainability.nus.org.uk/green-impact>) again this year – to help us identify things we can do to be more environmentally sustainable, e.g. by saving energy and reducing waste. We have now submitted our evidence for a Silver Award and we will find out if we are successful in June.

Recycling

The RSL has recycled 37% of its waste over the period Aug – Dec 2016. An increase of 10% over our previous averages for 2014 and 2015!
