

Dealing with books: adding chapters and essays from edited books

Click on the + sign on the top left of the toolbar

You will receive a drop-down menu. Click on **Create new reference**.

A box will open on the right of the screen with fields for you to fill in. Some of them contain suggestions/hints for filling in (in grey), which can be overtyped.

You will first need to select the reference type. For an essay/article/chapter in a book of collected essays, choose the reference type 'Book Section'.

The screenshot shows a form for creating a new reference. At the top, the 'Ref Type' is set to 'Book Section', with a red arrow pointing to the dropdown arrow. Below this, the form is divided into several sections:

- Title**: A text input field with a lightning bolt icon on the right.
- Authors**: A text input field with the placeholder 'Last name, First name'.
- Abstract**: A text input field.
- Tags**: A text input field with the placeholder 'Add tag'.
- Attachments**: A text input field with the placeholder 'Add an attachment...' and a paperclip icon.
- Publish Date**: A text input field with the placeholder '"Mar 12, 2015" or "2015"'. The text is greyed out.
- Editors**: A text input field with the placeholder 'Last name, First name'.
- Book Title**: A text input field.
- Pages**: A text input field with the placeholder '11-21'.
- Publisher**: A text input field.
- Place of Publication**: A text input field.
- Notes**: A text input field at the bottom.

As is normal with RefWorks, this is auto-populated with suggested sub-fields which would normally be used for this reference type. To add your reference, fill in the form and click 'Save'. The first field 'Title' is where

you should add the title of the chapter or essay you wish to cite. You should fill in the book title further down the form under 'Book Title'.

RefWorks may suggest titles

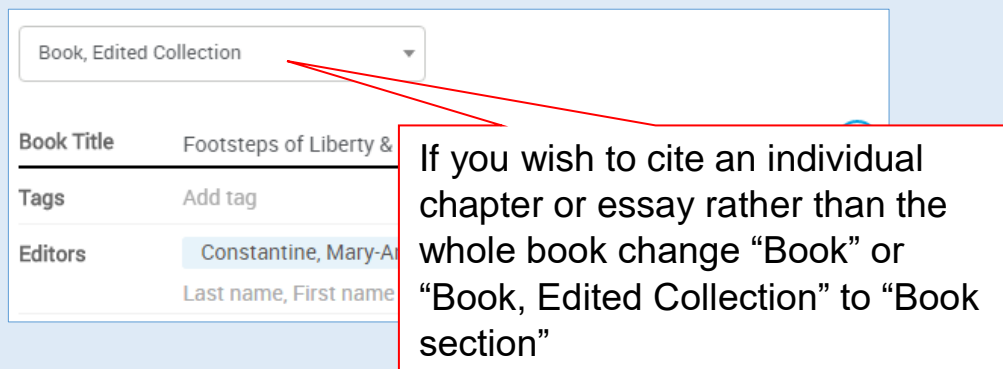

If the book you wish to cite is included in the list of suggestions, you can click on it and this will auto complete the rest of the form. However, if you do this, Refworks will change the reference type from “Book Section” to “Book” and will remove the [section] “Title” that you entered. You will then not be able to cite the chapter correctly! Use the notes below to correct the reference.

Adding chapters and essays from edited collections when you have imported the book from SOLO or another catalogue or chosen a book from RefWorks auto-suggestions

When you choose a book from RefWorks' auto suggestions or when you import an edited collection of essays from SOLO or another catalogue, the record will relate to the whole book (not to the individual chapters or essays in the book).

If you want to cite the individual essays or chapters you will need to change the reference so that it refers to the chapter or essay. To do this:

1. Change the reference type from "book" or "book, edited collection" to "book section"

Book, Edited Collection

Book Title Footsteps of Liberty &

Tags Add tag

Editors Constantine, Mary-A
Last name, First name

If you wish to cite an individual chapter or essay rather than the whole book change "Book" or "Book, Edited Collection" to "Book section"

2. The "Title" part of the form is likely to have been populated with the book title instead of the chapter/essay title. Cut and paste the book title from "Title" field into the "Book Title" field. Then manually type the chapter or essay title into the "Title" field.
3. Likewise the "Authors" section of the form will probably include the name of the book editor. Again cut and paste this into the "Editors" field in the form and then manually type in the Author(s) of the chapter.

Ref Type	Book Section	
Title	Footsteps of Liberty & Revolt	
Authors	Constantine, Mary-Ann	Johnston, Dafydd

Series Title	Wales and the French Revolution	
Pages	11-21

Place of Publication

The Author(s) field will probably give the editor(s) of the book. Cut and paste this to the Editors field and then manually enter the author(s) name(s)

The title field for the section will probably have been populated with the book title. Cut and paste this to the Book Title field and then manually enter the chapter or essay title under Title field

4. The final result should like this:

Ref Type	Book Section	Book section
Title	The 'Marseillaise' in Wales	Chapter or essay title
Authors	Loffler, Marion	Chapter or essay author
Abstract		
Tags	Add tag	
Attachments	Add an attachment...	
Publish Date	Apr 1, 2013	Volume 13
Editors	Constantine, Mary-Ann Johnston, Dafydd	Book editors

Series Title	Wales and the French Revolution	
Pages	93-114

You should make certain you also have an entry for the book itself, as well as any sections you cite, as both are likely to be needed for your bibliography.
