Exporting references to RefWorks

To export references from EBSCO databases to RefWorks you can either use the 'Save to RefWorks' plugin (see separate exercise sheet) or you can use the EBSCO Export.

Using EBSCO export to export multiple items to RefWorks simultaneously

2. Then go to the folder by clicking the icon on the top right of the page:

3. In your folder, select all the items you want to export by clicking the tick boxes (or clicking 'Select all' if you want to export everything).
