BODLEIAN LIBRARIES
READING ROOM
WIRELESS SERVICE

Welcome to the Bodleian Libraries Reading Room Network Service

Please log on using your "patron barcode", that is the number written immediately above the barcode on your Reader Card (University Card for University members) and your OLIS patron password. This will authorise you to use the network service to access library resources and the wider Internet outside Oxford. The system will remember that your laptop or PDA has been authorised for an hour after you have last been active. After that time, you will have to log on again.

Barcode:
Password:

If you do not know your password, it may still be set to its default value. For cards issued in the last few years, the default password is your date of birth in the form *01JAN1970*. Older cards were issued with the password set to the barcode number. **If your password is set to be the same as your barcode, the system will not accept it and you must reset it**, which you can do through the "Patron Functions" section of OLIS.

For this purpose, OLIS can be accessed [here](#). Note that it takes around five minutes for a changed password to be passed to the network service, in which time you may not be able to log on.

If you have forgotten your password then you should ask library staff. The library staff at any of the OLIS libraries at which you are a member will be able to reset your password for you.

If you are a member of the University, you can use your VPN client now to bypass this log in process.

Use of this service is subject to the University's policies on the Oxford University IT Publications
